**$121M vs. $455M**
market cap (Nov. 13, 2026) vs. NAV (June 30, 2026)

**693**
completed residences

## The contrarian entry point

Class A units have recently traded at a material discount to the Company's most recently announced net asset value.[1] At the Nov. 13, 2026 close of $30.67 against June 30, 2026 NAV of $116.37, a buyer on the exchange acquires the underlying real estate at roughly 26 cents on the dollar of the Manager's estimate of value. Company-wide, the market values all Class A units at about $121 million against net asset value of $455 million.

The entry price is set by the market.

## Why Belpointe OZ

- **Completed, income-producing properties.** Aster & Links and VIV are built: greater than 92% and 86% leased as of November 1, 2026.
- **Construction complete at Aster & Links and VIV.** Lease-up risk remains until each is stabilized. The development pipeline carries its own construction risk.
- **Listed on NYSE American.** Any brokerage account, no accreditation, no subscription documents, no capital calls, no lock-up. Liquidity depends on market conditions.
- **Public company transparency.** SEC reports, proxy materials and quarterly NAV announcements.

## Portfolio

- **Aster & Links, Sarasota, FL.** OZ 1.0 zone. 424 residences,[2] ~51,000 sf retail anchored by Sprouts, 900+ parking spaces. Completed.
- **VIV, St. Petersburg, FL.** OZ 2.0 zone. 269 residences in two 11-story towers, ~15,500 sf retail, EDGE District. Completed.
- **901-909 Central Avenue North, St. Petersburg.** OZ 2.0 zone. Fully leased retail/office building.
- **Sarasota pipeline.** OZ 1.0 zone. 1700 Main Street (~130 residences, predevelopment) and 1701 Ringling Boulevard (office renovation, 20-year lease signed).
- **Storrs, CT pipeline.** Rural OZ 2.0 zone. 497-501 Middle Turnpike (~261 residences, predevelopment), 1750 Storrs Road and Storrs Road, near UConn.
- **Nashville, intended for sale.** OZ 2.0 zones. 900 8th Avenue South under contract to be sold; Davidson Street, ~15.6 acres rezoned for high-density use.

## Tax benefits: defer, reduce, eliminate

- **Defer** the capital gain by reinvesting in a Qualified Opportunity Fund within 180 days. Under OZ 1.0 the deferred gain is recognized on the earlier of December 31, 2026 or an inclusion event; under OZ 2.0, for investments from January 1, 2027, the deferral runs five years.
- **Reduce** the gain recognized with a 10% basis step-up after five years (30% only for qualified rural opportunity funds, which Belpointe OZ is not).
- **Eliminate** federal capital gains tax on the appreciation of the Qualified Opportunity Fund investment after a ten-year hold.
- **Bridge.** Exiting an OZ 1.0 investment before December 31, 2026 starts a new 180-day window that can overlap the start of OZ 2.0.[3] Review with a qualified tax professional.

## How to invest

**1.** Realize a capital gain. **2.** Buy OZ through any brokerage account within 180 days.[4] **3.** Make the deferral election on IRS Form 8949 and Form 8997 with your return, then hold.

[1] [2] [3] [4] See Important information on page 2. This fact sheet is not an offer to sell or a solicitation of an offer to buy any securities. Investing in Class A units involves a high degree of risk, including loss of the entire investment.

# Important information

## Not an offer

This fact sheet is for informational purposes only and does not constitute an offer to sell or the solicitation of an offer to buy any securities of Belpointe PREP, LLC. Class A units trade on the NYSE American under the symbol OZ. Investing in Class A units involves a high degree of risk, including the possible loss of the entire investment. Before investing, read the Company's filings with the Securities and Exchange Commission, including the risk factors in its Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, available at www.sec.gov. From time to time, in its sole discretion, the Company may offer Class A units directly under an effective registration statement. No such offering is currently open. Availability and terms are subject to change.

## Forward-looking statements

This fact sheet contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements about leasing, stabilization, development plans, dispositions, net asset value and the Opportunity Zone program. Words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may" and "will" identify forward-looking statements. They reflect current expectations and are subject to the risks and uncertainties described in the Company's SEC filings, including delays in the lease-up and stabilization of its properties, fluctuations in occupancy and market rents, the availability and cost of financing, and changes in tax law. Actual results may differ materially, and the Company undertakes no obligation to update any forward-looking statement except as required by law.

## Properties and Opportunity Zone designations

Property information is from the Company's Form 10-Q for the quarter ended September 30, 2026 (accession 0001493152-26-049977). Leasing percentages are the Company's estimates as of November 1, 2026 and change over time; a property is not stabilized until it reaches and sustains its target occupancy. Completed properties remain subject to lease-up, operating and refinancing risk. Development and predevelopment properties, and properties intended for sale, are subject to entitlement, construction, financing, market and disposition risk, and the Company may instead hold or sell them, or develop them with joint venture partners. Zone designations reflect the Company's assessment under current law and guidance. On November 5, 2026, the Treasury and IRS announced the census tracts designated as qualified opportunity zones under OZ 2.0, effective January 1, 2027. Zones designated under OZ 1.0 remain in effect through December 31, 2028, and under transitional guidance issued by the Treasury and IRS a qualified opportunity zone business operating in such a zone may continue to treat it as a qualified opportunity zone through December 31, 2047, subject to conditions, including conditions on new construction. New construction of property in OZ 1.0 zones after December 31, 2026 must meet working capital safe harbor conditions under that guidance and may not comply.

## Tax matters

Nothing in this fact sheet is tax advice. Opportunity Zone benefits depend on each investor's circumstances, holding periods and on current law and IRS guidance, which may change. Most states conform to the federal statute; a few do not. The deferral election is made by the investor on IRS Form 8949 and Form 8997. Investors should consult their own tax advisers before investing. The Company currently intends to manage its affairs so that it continues to meet the requirements for classification as a qualified opportunity fund under OZ 1.0, as well as the transitional guidance and the proposed regulations issued by the Treasury and IRS under OZ 2.0. These provisions remain untested, final OZ 2.0 regulations remain pending, and the Company's ability to qualify and operate in conformity with future requirements is subject to uncertainty. A failure to continue to qualify as a qualified opportunity fund would constitute an inclusion event.

## [1] Net asset value and market data

NAV per Class A unit is calculated quarterly by the Company's Manager under the valuation policy described in the Company's SEC filings. NAV is an estimate, not a guarantee of value. The market price of Class A units may be above or below NAV and may never reach it. Belpointe OZ has sold, and may in the future sell, Class A units at prices below net asset value, which reduces net asset value per Class A unit. Market price data is delayed and provided for information only. Figures in this document are updated automatically from public sources, including the Company's filings with the SEC and third-party market data, and may contain errors, omissions or delays. They are provided for informational purposes only. The Company's filings with the SEC, available at www.sec.gov, are the official source and control if there is any difference. Market capitalization is the $30.67 closing price on November 13, 2026 multiplied by 3,961,376 Class A units outstanding at October 30, 2026, as reported in the Form 10-Q for the quarter ended September 30, 2026. Any discount to NAV reflects market conditions and is not a prediction of future prices.

## [2] Residences

The 424 residences at Aster & Links include six guest suites.

## [3] Bridge from OZ 1.0 to OZ 2.0

Based on current law, Treasury regulations and IRS guidance, each of which is subject to change. Whether gain recognized on exiting an existing Qualified Opportunity Fund investment is eligible for reinvestment, and when the 180-day period begins and ends, depend on each investor's circumstances. This is general information, not tax advice. Consult your tax adviser.

## [4] Qualifying investment

Based on current law, Treasury regulations and IRS guidance, and on Belpointe OZ's structure as a Qualified Opportunity Fund, Class A units acquired with eligible capital gains within the 180-day period, whether purchased on NYSE American or directly from the Company, should be a qualifying investment. Opportunity Zone tax benefits depend on each investor's circumstances. Consult your tax adviser. Final OZ 2.0 regulations have not been issued and transitional guidance does not have the force of regulations, and therefore there can be no assurance that Class A units acquired after December 31, 2026 will be eligible for the Opportunity Zone tax benefits. The law, regulations and guidance are subject to change.

## Sources and management

Figures are from the Company's Form 10-Q for the quarter ended September 30, 2026 and Form 8-K dated August 28, 2026 unless otherwise stated.
